WHO AM I

Results-driven Software Engineer with 4+ years of professional experience in building modern, scalable, and user-friendly web and mobile applications. Specialized in front-end technologies with strong expertise in React.js and React Native, along with hands-on experience collaborating with backend teams and integrating APIs.

Proven ability to work effectively in office-based and team-oriented environments, contributing to both technical development and operational efficiency. Adept at understanding business requirements, translating them into functional solutions, and delivering high-quality software products.

Strong communication, problem-solving, and analytical skills with a focus on writing clean, maintainable, and performance-optimized code. Passionate about learning new technologies and continuously improving development workflows.

MY STACK

Frontend Development: React.js, React Native, Next.js, JavaScript (ES6+), TypeScript, Responsive UI Development

State Management: Redux Toolkit, Context API, Efficient State Handling

Mobile Development: Cross-platform App Development using React Native, Performance Optimization

Firebase & Native Integrations: Firebase, Firebase Notifications, CallKeep

API Integration: REST APIs, JSON Data Handling, Axios, API Optimization

Tools & Workflow: Git, GitHub, Agile Methodology, Sprint Planning, Code Reviews

UI/UX Practices: User-Centered Design, Performance Optimization, Clean UI Implementation

Other Skills: Debugging, Code Optimization, Testing, Documentation

MY JOURNEY

React / React Native Developer

March 2024 – October 2027 *Teknovation, Matta Swat (Onsite)*

- Developed and maintained scalable web and mobile applications using React.js and React Native.
- Collaborated closely with backend developers, designers, and project managers to deliver complete solutions.
- Participated in Agile workflows including daily standups, sprint planning, and retrospectives.
- Improved application performance and responsiveness by optimizing frontend architecture.
- Ensured clean, reusable, and maintainable code practices across projects.
- Contributed to feature design, debugging, and continuous improvement of applications.

Front-End Developer

July 2022 – February 2024 *Jazzari (Service-Based Company), Lahore (Onsite)*

- Designed and developed interactive web applications in a professional office environment.
- Worked closely with clients to gather requirements and deliver tailored solutions.
- Collaborated with cross-functional teams to ensure timely project delivery.
- Focused on building responsive, user-friendly interfaces with optimized performance.

EDUCATION

BS Software Engineering

2017 – 2021 *University of Swat* CGPA: 3.32

TECHNICAL SKILLS

JavaScript (ES6+), React.js, React Native, Next.js, TypeScript, Redux Toolkit, Firebase, Firebase Notifications, CallKeep

ADDITIONAL SKILLS

Project Management, Business Development Understanding, Critical Thinking and Problem Solving, Verbal and Written Communication, Public Speaking, Microsoft Excel (Advanced), Microsoft Office (Word, Excel, PowerPoint), Office Administration and Documentation
